

**Verataur, LLC  
FIFRA SSURO**

**Issue:**

**Ex (b)(5) - DPP; Ex (b)(7)(A) - law enforcement**

**Background:**

- Region 6 initiated an investigation of Respondents' compliance with FIFRA after receiving a complaint that the company was selling unregistered pesticides; specifically, the Product which is advertised as a disinfectant.
- Region 6 issued an NOPVOC to the Respondents on April 1, 2021 and confirmed while conferring with the company that the company has distributed the unregistered Product at least 100 occasions.
- Verataur, LLC has sold this product to a company called Maverick International, who in turn sold the product the HEB. After EPA issued an advisory letter to HEB and Maverick International, HEB later sued Maverick International. Verataur purchases the Product, BioErase Surface Wipes, from a company called Environmental Manufacturing Solutions located in Region 4. Environmental Manufacturing Solutions sells the product as, Purgo, which Verataur relabels as BioErase Surface Wipes.

**Ex (b)(5) - DPP; Ex (b)(7)(A) - law enforcement**

**Key Points:**

- **Size of Business:** Current information suggests a Category II (per the FIFRA ERP) size of business with approximately revenue of \$1 - \$10 million a year.
- **Product Information Demonstrating Need for Registration:**
  - The Product claims to be a minimum risk pesticide intended to be used for pesticidal purposes. The Product claims to be exempt from FIFRA regulation and product registration.
